

AQUATEC®

Pico Commode

The modular and versatile commode

Yes, you can.®

Flexible toilet pan holder

You will be surprised how versatile a commode can be when you first see the *Aquatec Pico commode*.

With its modular concept, it can be easily adapted to one's personal demands without the use of any tools. Light weight and completely corrosion free, it sets the new standard for commode chairs.

Choose easily how you would like to handle the toilet pan according to the individual living situation.

Whether you prefer to take out the pan from the rear or rather from the side, the flexible pan holder of the **Pico commode** makes your choice a simple one.

Support where ever you might need it

Taking off the backrest takes just seconds and the *Aquatec Pico commode* can be used over every toilet for additional support.

Features and Options

Versatility

Build your own personal **Pico** without using tools. For limited space e.g. you can use one armrest only.

High load capacity

High load capacity of 160 kg in every configuration.
