Flo-tech™ Plus

Deep contoured cushion with gel sac

Yes, you can.

The Invacare **Matrix Flo-tech Plus** cushion incorporates a fluid sac integrated in the cushion seat well. The positioning of the fluid sac targets the ischial tuberosities, helping to significantly reduce pressure in this vulnerable area. This delivers superior levels of protection for those patients identified as being at High Risk of developing pressure ulcers.

Contoured seating surface

Offers improved stability and postural support. Also delivers a greater degree of pressure distribution compared to that of a flat surface. The castellations of the cushion allow slight movement which in turn reduces shear and friction forces. The deeper moulded foam offers greater protection to those who are considered clinically obese, or users who would benefit from a higher sitting position.
