

AQUATEC®

Kogia

Bathing simply reinvented

Yes, you can.®

The *Aquatec Kogia* makes bathing simple and has been designed with **comfort, ease of use** and **safety** in mind. Weighing only 10kgs, the **Kogia** is **lightweight** yet able to support up to 140kgs. Having been tested against the toughest safety standards, the bathlifter has a robust and stable structure allowing you to bathe with peace of mind.

- Easy to use with a smooth riser mechanism
- Easy to assemble and maintain
- Lightweight and easy to move and handle

Features and Options

Floating handset

This easy to use, floating hand control has been **ergonomically** designed and can be placed in its handset holder when not in use.

Open base plate

There is no need to remove the **Kogia** from the bath when you clean thanks to the open base plate.

Comfortable bathing experience

While straightforward in nature, the **Kogia** has many features including its easy to use hand-control, smooth moving riser mechanism, its ability to lower to within 60 mm of the base of the bath and its **shorter seat**, allowing more room to bathe.

Assembly and maintenance

The **Kogia**'s simple design makes assembly and maintenance very easy. Cleaning is effortless due to its smooth surface and open frame base plate, allowing you to clean the **Kogia** while it is still in the bath. Its lightweight design makes it easy to move in and out of the bath, all of which allow for a **easy, comfortable** and **safe** bathing experience.
