

Cetus[®]

PREMIUM PERFORMANCE | ADVANCED COMFORT |
COMPLETE INDEPENDENCE

Yes, you can.

The *Invacare Cetus* scooter has been specifically designed to offer a durable, premium product for those who desire complete independence to travel further afield. With high performance to support those with an active, independent lifestyle, the *Cetus* can travel up to 44 km. With advanced comfort, adjustability and front and rear suspension, the *Cetus* will ensure a smooth ride across almost all terrains.

Complete independence

Longer distances

The *Cetus* is the ideal scooter for those who live life to the full. With a maximum range of up to 44 km, the *Cetus* is able to support users on those longer journeys. With speeds up to 15 kmp/h and a high-low speed switch on the control panel to effortlessly switch between pavement and road speeds, the *Cetus* is ideal for all environments.

Suitable for all users

With a 22" wide captain swivel seat, the *Cetus* is built to support all shapes and sizes. The *Cetus* can be configured easily with a built-in sliding seat mechanism, back angle adjustment and height adjustment. With a higher maximum user weight of 226 kg, the *Cetus* is truly a diverse product for a range of users.

All terrain mobility scooter

Perfect for those rougher terrains, the *Cetus* is equipped with 15" tyres and front and back suspension to provide a smoother ride for those looking for a more adventurous journey.
