

**Küschall®**  
**CHAMPION**

## **UNLIMIT YOUR WORLD**

We at Kuschall believe anything is possible when you have the power to achieve it. The Kuschall Champion offers a superior solution for you. Unlimit your adventures, unlimit your performance, **Unlimit your world.**

## **KÜSCHALL CHAMPION**

Kuschall Champion is the **unique** wheelchair that will give you the driving experience of a rigid frame with the convenience of a folding product. It's the ultimate combination of modern design with proven **hybrid** performance. The SK (Swiss knife) option will make your Kuschall Champion **super compact** to the size of a backpack, the perfect travel companion for your adventures.

## **HYDROFORMING**

Strength, lightness and rigidity. The hydroformed front frame on the Kuschall Champion enhances your driving performance, increasing the stiffness and enabling effortless transfers with the ergonomic grip.

## HYDROFORMED FRONT FRAME

- Optimised driving performance due to lower flex (higher stiffness) in knee area.

## LIGHT ACTIVE BRAKE

- Minimalistic design, precision even in the smallest details.

## SUPER COMPACT

- The SK (Swiss knife) option enables the Champion to fold down to the size of a backpack

# Küschall® CHAMPION

## CARBOLIFE HANDRIMS

- The innovative handrim profile enables you to gain control, low-effort grip while stabilising your wrist.

## FOLDING MECHANISM

- Fold the wheelchair and the backrest effortlessly in only one movement.

## UNIQUE FOLDING UNIT

- One single unit allows to seamlessly adapt the centre of gravity and seat heights to the user's requirements.

## KEEP ON TRACK

- Intuitive castor housing adjustment, excellent in keeping the direction steady.

# KEY FEATURES

## UNIQUE

With the unique folding unit on the Champion, you are able to effortlessly adapt and configure to the user's requirements. One unit to adjust the centre of gravity in 9 different seat positions, rear seat height and 5 different possibilities on how to mount the adapter for different set ups.

## HYBRID

The folding mechanism is the reason why the Champion has a superior driving performance vs other foldable wheelchairs. Perfectly engineered, the result is a hybrid wheelchair: foldable but with the stiffness and rigidity of a fixed frame.

## SUPER COMPACT

Simply fold the main frame with the unique designed folding mechanism, for compact and easy transportation or travel. Super compact with the SK (Swiss knife-folding) option, enables the Champion to be folded even smaller.

## HYDRO-FORMED FRONT FRAME

The newly designed hydroformed front frame provides an ergonomic grip to support users comfortably while repositioning and during transfers.
