Embla	✓	✓	✓		
Torill	✓*	✓*	✓*		
Ane				✓	✓

\* Bed ends without guides for full length side rail

## Side rail covers

Our side rail cover range serves several purposes: the padded versions are used to prevent clients hurting themselves on the sides of the bed, the netting covers prevent the client putting their arms or legs out through the openings in the side rails and yet still allow clear visibility.

All covers can remain on the side rails when the side rails are operated.

All covers can be easily removed and washed at 90 degrees.

### Padded side rail covers

To be used with Freya & Embla side rails

### Padded side rail covers

To be used with Freya & Embla side rails with height extender

### Net cover

To be used with Freya and Embla side rails

### Padded side rail cover

## Repositioning aids

Our range of stable support handles and mobilization accessories promote client independence, by supporting the clients to reposition themselves in the bed and to get safely in-and out of bed.

### Support Handle

H40 x W30 cm

### Support Handle

H40 x W90 cm

### Swivel support handle

The swivel support handles make it possible to swing the legs out over the handles before the grip is folded out. Can be used alone or in pairs

### Stand-up support

Makes getting in and out of bed easier

### Sit-up support

Supports the client to get to true sitting position and can support getting in and out of bed

### Lifting pole

Catching handle can be adjusted in both height and depth

## Other accessories

### Torill side rail extension kit

### Cover tubes

To be mounted on the bed frame to cover the tubes when the bed is extended

### Handset holder

### Distance bumper

Prevents walls from being damaged when the bed is moved. Can be placed on the base frame at the end of the bed or at the side of the bed

### Extension kit +10 cm
