

# Scorpius Range

FOLDABLE | COMPACT | VERSATILE

Yes, you can.

The *Invacare Scorpius* range has been specifically designed for individuals who wish to maintain an active, independent lifestyle without compromising on space. Ideal for daily use, the folding mobility scooters are also the perfect travel companion for those who wish to take their scooters abroad.

## Easily folded and transportable

Compact enough to fit into the rear of a standard car or to travel abroad, the versatile Scorpius range is perfect for those individuals who are constantly on the move.

Available in 2 versions, the *Scorpius* can be manually folded in 3 simple steps, whilst the *Scorpius-A* can be compactly folded in under 10 seconds with the single push of a button.

### Compact & Lightweight

Compact when folded, both models can be easily placed inside a boot of any car. With both models weighing less than 30kg with the batteries removed, they can be effortlessly lifted when necessary. The impressively small footprint of both scooters when folded means that they can conveniently be stored in small spaces.

### Airline Compliant

For independence abroad, the standard 11.6Ah lithium-ion battery weighs just 2.8kgs and is IATA and MSDS compliant for overseas travel on aeroplanes\*.

\*It is recommended to check with your airline before travelling.

## 5 EXCLUSIVE FEATURES

- 1 Compact Folding**
- ▶ Effortlessly folded for travel and storage
  - ▶ *Scorpius* folded dimensions = 750 (l) x 512 (w) x 540 (h) mm
