NEW foldable & lightweight power chair

Featuring innovative gyro technology

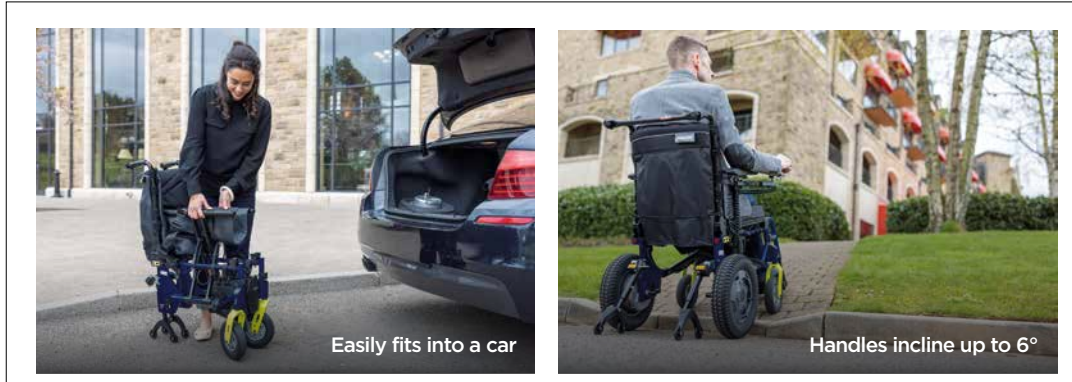

Yes, you can.[®]

Advanced new design.

Our Esprit Action® has moved forward with technical precision.
Every part of its new design has made progressive steps.

An extensive customer-led design programme has made the difference. The new Esprit Action® is lightweight, foldable and uses integrated Alber powered wheels on a highly customisable

aluminium chassis from our popular Action® range. The results are unprecedented. It's finally time to enjoy the freedom and true spirit of the Esprit Action®.

KEY FEATURES

Negotiates narrower spaces

Featuring new innovative gyro technology, the compact wheelbase gives enhanced manoeuvrability making the narrowest of environments easier to negotiate. The rear wheels are repositioned forward for better traction and a smaller turning radius.

Effortlessly handles inclines

Inclines of up to 6° are effortless, smooth and stable. The new gyro technology reduces acceleration according to the degree of the slope and quickly detects when the wheelchair is on a tilt.

Easier to transport

Designed using an Action® lightweight folding frame and removable powered rear wheels and battery, the Esprit Action® can be folded for transportation without ramps and adapted vehicles.

Cross compatibility

Cross-compatibility with the Action® range allows for quick adaptations. The Esprit Action® can be customised around specific needs quickly and cost effectively.

15kg*
*min. transportable weight

8km/h
speed option

14" Alber
powered
wheels

Better drive performance

14" rear wheels and pneumatic rear and front tyres give a smooth and comfortable drive. The new design also features a new 8km/h speed option for improved outdoor performances.

Options

Lightweight Alber swivel arm

Premium anti-tipper option provides jack-up function for quick release of wheels

Comfort & support

Optimal positioning is achieved through highly configurable options and accessories. The wheelchair can be discreetly fine-tuned to meet clinical needs.

Even better performance

Introducing the next generation of Esprit Action®. An exciting new design using an innovative combination of technology, performance and carefully considered refinements.

ESPRIT Action® Junior

The Esprit Action® Junior enables children to enjoy an active and independent lifestyle. The new Junior encourages kids to be kids, be happy, active and ooze confidence.

Whether it's connecting with friends online indoors or meeting up and playing outdoors, every child can actively participate and feel good about their Esprit Action®. Sharper visual aesthetics and a choice of three colour combinations, the Esprit Action® ensures children use their wheelchair without limitations. More possibilities, more fun.
