

**OPTIMAL CUSHION FOR POSITIONING**

Follows the body's contours for equal pressure redistribution | supports IT-coccyx area | manages pelvic asymmetry

Pre-ischial bar limits sliding forward | converts shear into normal forces

Mid height zip closure for easy adjustment when clients are seated | cushion keeps its shape, enhancing the user's skin protection

Thigh support

- ▲ Minimizes sliding and shear forces
- ▲ Individual solution for asymmetry
- ▲ Optimal adjustment to the body's contours for equal pressure distribution

The Vicair Adjuster 12 O2 consists of 6 individual compartments, designed to contour under loading. It automatically manages obliquities and is individually adjustable to support more extreme asymmetry. The thickness of the cushion ensures perfect positioning. Each compartment is designed to influence a specific area of the pelvis, striking a unique balance between preserving skin and underlying tissue at the ischials, coccyx and trochanters, positioning the pelvis and supporting the femurs. For specific needs the filling of each of the 6 compartments can be easily adjusted, allowing you to change the density of each compartment.

**PRODUCT PERFORMANCE**

**Skin protection / Anti decubitus**
