

Comet[®] Pro

Feel the Freedom

A premium scooter for advanced mobility
giving exceptional power and performance

Yes, you can.

Feel the difference

Our scooters have been designed together with healthcare experts, to provide unrivalled standards of quality, safety and comfort.

Through continuous dedicated research and an unrivalled experience in designing for mobility, at Invacare we pride ourselves in scooters that improve quality of life. Being able to regain confidence, trust and independence from your scooter is important.

From ergonomic steering controls to the adaptable cushioned seats and adjustable seat risers, every detail of our scooters is considered and refined to make getting about feel great.

Quality

Market-leading build quality with exceptional attention to detail.

Safety

Compliant with the latest European Medical Device Standards.

Comfort

Adjustable design to provide lasting comfort.

Feel in control with Comet® Pro

The Comet Pro is our most advanced outdoor scooter. Designed with exceptional features and options to take you wherever you want to go in comfort, safety and style. It's a design to provide drive performance and total control without compromise.

Comet Pro features exceptional driving features and modern aesthetics to deliver premium performance and control. The 2 x 12 V / 75 Ah batteries allow users to enjoy challenging journeys beyond the city's limits.

It also has large front and rear wheels, combined with a superior suspension system that allows safe negotiation of kerbs and obstacles smoothly and comfortably.
